

Voluntary Code of Ethics for the General Elections 2019

Preamble

The Internet has created opportunities for all to access reliable information, seek out credible sources, and obtain relevant facts. The web's openness has made these benefits available to all no matter who they are and where they are located.

This equally applies to elections, which are key to nurturing and strengthening a democratic culture. A free and fair election is the foundation of democracy. Access to reliable information and communication platforms via the Internet enables people to make informed choices in exercising their franchise during elections.

Keeping this context in mind and as per recommendations of the Sinha Committee Report, Participants recognise that while their products/services allow users to post content, the Participants are neither the author(s) nor the publisher(s) of such content. However, the Participants have together developed this 'Voluntary Code of Ethics for the General Elections 2019' (Code) and are committed to helping support such democratic processes by improving the integrity and transparency of the electoral process.

The Participants recognize that their group companies provide and administer different products and services, each operating under different business models and technologies while having varying audiences. Therefore, the Participants will endeavour to ensure that such products/ services meet the spirit of the Code while accounting for the diverse nature of the products/ services, which are governed by their respective product policies.

The Code shall apply within the existing legal framework in India. In case of any conflict between the voluntary framework and the existing legal framework, the legal framework will prevail.

Purpose of the Code

The purpose of this voluntary Code is to identify the measures that Participants can put in place to increase confidence in the electoral process. This is to help safeguard the products
